

Jay Marchesseault is originally from the Montana where he obtained his BS EE degree from Montana State University (MSU) in 1988. Upon graduating from MSU, he spent six years as an officer in the US Navy operating nuclear power plants on aircraft carriers. Following his Navy career, Jay worked in Silicon Valley for 13 years in the high tech industry developing semi-conductor capital equipment. After getting married and starting a family he wanted to move into the country and shifted careers to the electric utility industry. After working nearly three years in the wind industry managing wind parks in the central valley of California, he moved to a municipal utility

in Lodi, California where he manages the Engineering and Operations Department for Lodi Electric Utility. While at Lodi Electric Utility, Jay obtained his Professional Engineer's license in Electrical Engineering with a focus on Power.

Jay's hobbies include mountaineering, ice and rock climbing, skiing and any outdoor activity that he enjoys with his family.
